

March 31, 2020 COVID-19 Update:

Dear Residents of LivGenerations Communities and Springs of Scottsdale,

Yesterday we communicated that beginning today, March 31, 2020, at 5 p.m., all residents in our LivGenerations communities and at the Springs of Scottsdale will be mandated to stay within their own apartment homes within our communities.

We also said that we were taking time to work through unique scenarios that present themselves based on our resident's individual needs and the realities of our community. Based on those ongoing discussions, we are taking another day to further clarify our operational policies as we move into this next stage of preparedness. We want to find the most thoughtful way of providing this next level of safety while honoring everyone's needs.

Expect another communication from the task force tomorrow to further explain what our additional policy changes will look like.

Sincerely

The Liv Well Task Force
