

June 8, 2020

Dear Residents of LivGenerations and Family Members,

This week brings the re-opening of a few additional services within our community. Please read below for the details and feel free to email livwell@livcommunities.com if you have any questions.

Beginning today, **Vibrant Living is back with face to face events.** Please check the new max capacities and verify that there is room in the class before joining. If max capacity has been reached, you may participate live in your room or use the recording at a later date

Family visitations can now occur inside in designated areas. All previous arrangement details and procedures are still in place but when booking your appointment, please note if you would prefer an indoor or outdoor visit. A reminder that masks must be worn, no touching and no exchanging of packages. Care packages can be handed to the concierge for sanitization and will then be delivered to the resident's room once cleaned.

For our **Signature Services residents at LivGenerations Agritopia, visitors are now approved.** Please email agritopiafamilyvisit@livgenerations.com to schedule a visit. Please include the resident's name, date and time of visitation requested. Our Liv team members will add you to a list for approved visits and send a confirmation e-mail back to you. If there is any issue with the requested date and time, the Liv team will let you know so that it can be rescheduled.

Virtual Vibrant Living programming is now a permanent service! We had such a great response to this new program that we've decided to keep it. Remember that even those living outside of the community can enjoy the programs. You can participate in live Vibrant Living programming in real time from your room or at a later date using recordings.

Breakfast in Crave is tentatively starting on June 15. All social distancing and CDC safety recommendations will need to be honored. More details to follow.

It feels great to start to re-open these amenities and we are so thankful for how wonderful everyone has been at following the changes in procedure. Please remember that the virus is still a significant risk for all of us and practicing social distancing, wearing masks, and washing our hands frequently will help us all stay healthy. Have a wonderful week and please let us know if you have any questions or concerns via email, livwell@livcommunities.com.

Sincerely,

Liv Well Task Force
