

July 2, 2020

Dear Residents of LivGenerations Agritopia and Family Members,

Due to the current spike in COVID-19 cases in Arizona, we have had to make a few modifications to our previous re-opening steps. As previously stated, visits from family and friends are suspended. Only visits considered medically essential are allowed. Additionally, the Governor recently ordered the closing of all gyms. We clarified with the Arizona Department of Health Services if this included our Liv Fit inside our community and unfortunately, at this time, it does. In the meantime, please return to utilizing virtual Vibrant Living programming and any additional online fitness classes you enjoy. We will continue to advocate with the AZ DHS to re-open our fitness facilities that are contained within our community.

The current case count shared last week continues to hold steady. At this time, we have no (0) active resident cases and two (2) active employees who are fully recovered.

Please continue to follow all CDC recommendations and honor the communities' policies on social distancing, hand washing and mask use.

Questions and comments can be directed to the task force at livwell@livcommunities.com.

Sincerely,
The Liv Well Task Force
