

August 19, 2020

Dear Residents of LivGenerations Agritopia and Family,

We hope everyone is enjoying the changes implemented last week. As the Phoenix area numbers decrease and government entities begin to lighten restrictions, we will follow their lead and extend more opportunities for engagement and interaction.

We are finalizing Memory Care family visits. To keep our residents safe and healthy, residents will not be allowed to leave the building and visitors will be outside. We will utilize the balconies and patios to create the physical space needed for safe interactions. This is the safest way to offer in person connections. Instructions for visitations will come in next week's memo.

Over the coming weeks, we are expecting a directive from the Governor's Task Force regarding visitations for Memory Care and Direct Care residents and will share that information with you as we receive it.

State sponsored COVID testing was executed on August 18. We are awaiting the results and will share individual test results as needed with residents. Total outcomes will be communicated to all residents and families in a future memo.

Today, August 19, we have no (0) residents and one (1) team member diagnosed with active case of COVID-19. Active team members are not working in the community and will not return to work until cleared by a medical provider or a Liv clinician.

Keep up the great work with implementing all the safety procedures so we can continue to enjoy the community amenities while keeping everyone safe and healthy. Please continue to wear masks and practice social distancing when moving around the community.

Any questions or comments can be directed to the task force at [livwell@livcommunities.com](mailto:livwell@livcommunities.com).

Sincerely,

The Liv Well Task Force
