

November 18, 2020

Dear Residents and Families of LivGenerations Pinnacle Peak,

Today, November 18, we have no (0) residents and six (6) team members diagnosed with active cases of COVID-19. The active team members are not working in the community and will not return to work until cleared by a medical provider or a Liv clinician.

Per our communication last night, we are currently testing all Pinnacle Peak Liv team members and all residents impacted. Plans are underway to re-test all team members and all residents next week. We hope to contain any additional unknown spread with the “pause for safety” measures that we implemented today through Monday, November 23.

Additionally, The Arizona Department of Health Services has communicated that they are beginning to see reinfections. All safety protocol should continue to be followed even if you have been previously diagnosed with and recovered from COVID-19.

As new information presents, we will continue to promptly communicate via email, door drops and postings on the COVID-19 page of the community website and at livcommunities.com. Any questions or concerns may be directed to the Liv Well Task Force at livwell@livcommunities.com.

Sincerely,
The Liv Well Task Force
