

December 1, 2020

Liv team:

Over the past few months, Blue Cross Blue Shield has taken many steps to assist our teams with the effects of the pandemic. We are reaching out today to inform you of some recent changes and updates related to COVID-19:

- BCBS is extending the timeframe for covering the member portion of costs for COVID-19 treatment through March 31, 2021.
- BCBS will pay for **COVID-19** diagnostic and antibody tests that have been ordered by a Health Care Provider (a licensed physician, pharmacist or clinician operation within the scope of their license) who determines testing is medically appropriate using judgement in accordance with accepted standards of medical practice.
- Tests that have not been ordered by a Health Care Provider will not be covered under the group plan.

BCBS will continue to identify ways to help our Liv team members during this public health emergency and have promised to keep us updated. For more information, visit bcbsm.com/coronavirus.

As always for more information regarding COVID-19 we suggest you visit the CDC's website directly at: [cdc.gov](https://www.cdc.gov). For our most current Liv communications and updates on COVID-19 both team and resident related, please visit our website at <https://livcommunities.com/covid-19/>. If you have any questions, suggestions or just need to have a friendly chat, we welcome and encourage you to reach out to LivWell@livcommunities.com.

Sincerely,

Your Liv Well Task Force
