

January 6, 2021

Dear Springs of Scottsdale Residents and Families,

COVID-19 continues its aggressive second wave through Maricopa County and the world. Case counts continue to rise, and hospitals continue to be overwhelmed. The whole country, even the world, is gearing up for an even harder fight in the coming weeks. It is important to remember that as a resident of The Springs of Scottsdale, you will be at the front of the line for lifesaving vaccines. We continue to work alongside CVS Pharmacy (our vaccine provider) to coordinate dates and hope to have more information soon. When speaking to our vaccine partner today they shared they are currently working through skilled nursing communities and then Senior Living communities are next. Our plan is that once the majority of our community has had both doses of the vaccine we can open up within the community and once again gather, eat and enjoy the company of others.

Maricopa County is still rated RED for substantial transmission of COVID-19. This rating places countywide restrictions on businesses across all industries. The Springs of Scottsdale must operate within the confines of the guidelines as it relates to visitations, residents' mobility, dining and amenities offered throughout the community. We understand this is an inconvenience to our residents, their family and friends, but restrictions are not unique to our community or solely impacting our residents. We can all do our part to keep infections down by honoring social distance, wearing masks, not gathering in groups and following all precautions recommended by the CDC.

Today, January 6, we have no (0) residents and two (2) team members diagnosed with active cases of COVID-19. Positive team members are on sick leave and not within the community.

Please continue to practice all safety measures which are known to decrease the chances of infections. Questions or concerns may be directed to the Liv Well Task Force at livwell@livcommunities.com.

Sincerely,
The Liv Well Task Force
